

F1 ECO

Satin Stainless Steel 

White Ceramic 

Polished Stainless Steel 

Technical Specifications

Voltage	Voltage 220/240v - / 50Hz
Power	350w - 1600w
Net Weight	5.8 kg (6.0 kg Posted)
Dimensions (D x W x L)	175 x 201 x 277mm
Noise Level	75dB - 78dB at 1m
Cover Options	Ceramic / Stainless Steel

* Tech Spec subject to change without previous notice. ** Calculations based on 120 uses a day | Based on manufacturer's stated figures.

“Noise and power adjustment allow this dryer to adapt to any environment”

Overview

Thanks to a unique external adjustment the F1 Eco gives the user the ability to increase or decrease both the power and noise level, therefore adapting to its environment.

Internally the F1 Eco benefits from switchable heating allowing the user to gain a further reduction in energy consumption.

A blue guidance light indicates where hands gain optimum drying position whilst an LED display indicates to the user when the dryer is active.
